Venue	Tomlinson Centre

The aim on the workshop is to introduce participants to the concept of contextual safeguarding and its relevance to adolescent safeguarding and developing practice within Hackney.

Learning outcomes

- Participants will explore different manifestations of peer-on-peer abuse and how responses are shaped by current policy and practice.
- Participants will discuss how engaging with social environments and extra-familial relationships is key to developing responses to adolescent safeguarding.
- Participants will draw upon case studies and practice experience to explore how multi-agency approaches can support the development of holistic approaches.
- Participants will be able to reflect and critique practice and contribute to shaping innovative work within Hackney.
